

JENNINGS'

Continued from Page One

hunter's dogs four months later. **THE DENTIST**, who before quitting baseball, played for the Boston Braves, New York Giants, St Louis Cardinals and the Chicago Cubs, said Miss Eisenberg was his patient in Newark from October, 1947 to February, 1948.

He identified a series of radiographs as those taken of Miss Eisenberg's teeth.

WITH THE AID of an X-ray view machine he compared the radiographs with X-rays taken of the jaws and skull of the body.

The first witness on the eighth day of trial was Dr Reginald House, professor of pathology at Dartmouth Medical School. He testified he was called to exam-

ine an unidentified body last November.

HE SAID he subsequently made X-rays of the skull and jaws. These were shown to the jury before Dr Farrell was called.

Jennings' wife also was expected to be called as a state's witness.

ATTORNEY General William L. Phinney said last night he would call Jennings' wife, Abbie, as a state witness. He said she probably will appear on the stand today.

A former Rochester City Marshal testified yesterday that a wrist watch the government contends belonged to Ruth Eisenberg, the slain girl, was turned over to him by Jennings' wife.

ERLON H. FURBUSH told a Superior Court jury that Mrs Jennings gave him the watch last November 19 while the Jennings home was being searched.

Under cross examination by Attorney Joseph LeCount, Furbush quoted Jennings as saying he bought the watch for five dollars from a "colored man."

The watch, which is a vital cog in the state's case, finally was admitted as evidence.

Shown the watch which has been identified by other witnesses as one Miss Eisenberg wore, Furbush said:

"That's the watch Mrs Jennings gave me."

He said the watch was produced by Mrs Jennings after he and other officers searched the bedroom of the Jennings home.

Furbush denied under cross examination that Jennings was left naked an hour after being stripped of his clothing at police headquarters.

He also denied the defendant
